State-level Lists of Casualties from the Korean Conflict (1951-1957) State-level Lists of Casualties from the Vietnam Conflict (1957-)

The Center for Electronic Records, National Archives and Records Administration, has custody of two databases with records from the Office of the Secretary of Defense (R.G. 330) for the U.S. military casualties from the Korean and Vietnam conflicts. The records in the Korean Conflict Casualty File are for persons who died as a result of hostilities in Korea, 1950-57, including those who died while missing or captured. The Combat Area Casualties File includes records for persons who died or were missing or captured as a result of either a hostile or nonhostile occurrence in the Southeast Asian Combat Area, 1957- , including those who died while missing or captured.

The Center has prepared state casualty lists by creating extracts from the database. Each state list incorporates selected data elements for all deceased casualties whose state "home of record," as identified by the serviceman or woman upon last entrance into military service, was that state. "Home of record" does not necessarily refer to the place of birth, residence of next of kin, place of longest residence, or other common uses of the term "hometown." In the Korean database "home of record" for Army and Air Force casualties is by county, while for Navy and Marine Corps casualties, it is by city/town. In the Vietnam-era database "home of record" is city/town for all services.

The state lists include the following data for each casualty: name, rank or grade, branch of service, home of record, date of casualty, date of birth, category of casualty. The state lists may be ordered in either of two formats: alphabetically by last name; or, alphabetically by "home of record." The charge for each state list is \$4.50, with a minimum charge for mail orders of \$5.00.

All requests must be prepaid. Checks should be made payable to the National Archives Trust Fund. Please send requests, taking care to specify the type of list(s) needed and the state(s) of interest, along with payment to Reference Services, Center for Electronic Records (NNX), National Archives and Records Administration Washington, D.C. 20408.

A printout or machine-readable tape copy of complete records from this database for all persons who died (all states) as a result of hostilities is also available. Please contact the Center for Electronic Records for further information, (202) 501-5579.
